

# Stream Flow Rate

# Bank Stability

# Macroinvertebrate Evaluation

A decorative header strip at the top of the slide. It is divided into several sections: a solid yellow section on the far left, a section with a white starburst on a green background, a section with a brown fish on a green background, and a section with blue and white clouds on a purple background. Below the header is a vertical yellow bar on the left side of the slide.

# Fish & Amphibian Populations
